*Food supplement should not replace a varied and balanced diet and a healthy lifestyle. This product is not intended to diagnose, treat, cure or prevent any disease.

MANGOSTEEN SUPERFRUIT POWER:

Mangosteen is a rare superfruit primarily found in Southeast Asia. No relation to the mango, it has been hailed as the “Queen of Fruits” and has been used for centuries by Asian health practitioners for a variety of conditions.*

FACT

The mangosteen rind and pulp were traditionally used to concoct teas, juices and topical ointments.

TARGET MARKET:

Vemma is perfect for individuals over 9 years old that are interested in vitality and building a strong nutritional foundation for overall well-being.*

FREQUENTLY ASKED QUESTIONS:

Why supplement with Vemma?

The answer is simple — Vemma is an ultra-premium liquid formula that provides your body the nutrients it needs for peak performance.* Your body needs superior nutritional ingredients that work quickly to support your cells and defend against the effects of free radicals.* Free radicals are unstable molecules that remove electrons from a healthy cell, destroying the cell in the process. Without a strong nutritional foundation, your cells may be more susceptible to free-radical damage; this proprietary formula helps provide defense against the effects of free radicals.*

What is organic glyconutrient-rich aloe vera and why is it important?

Organic aloe vera is a powerful glyconutrient that originated in Africa and has been used for centuries because of its versatility and life-giving minerals, vitamins and polysaccharides. It is known to support immune function and provides antioxidant benefits for overall wellness.*

Why is organic decaffeinated green tea important?

Green tea is well studied and documented for its traditional use. Organic decaffeinated green tea is added to Vemma because it possesses numerous compounds that provide additional antioxidant support and health-enhancing properties.* We elect to use a decaffeinated source to keep our consumers' best interest in mind since caffeine consumption may not be appropriate for everyone.

FACTS

The human body produces over 300 million new cells each day. In 2 ounces of Vemma, there are over 90 different nutrients.
